

Dear Parents/Carers,

We are having lots of fun with our new topic "Journeys" and it has been great to see the children working so hard at all their tasks in and out of school. Thank you so much for your support with their homework. Already we can see how this is impacting on their work in school.

Whitby Hope Bus Stop

The children had a super time exploring the interactive activities offered on the Hope bus on Monday. It was great to see them explore and express their curiosity, whilst reflecting on their "big questions" and what was important to them. We thank Whitby Hope Bus Stop staff for their engagement with the children and the great activities that they put together.

CODE CLUB (Y3 +)

Code Club will be running again after school 3.15 to 4.15pm from Thursday 5th October. Anyone in Y3 and above who is interested in coming to learn how to make mini computer games and animations using Scratch, a drag and drop programming language, please get a permission letter from the office and return by 25th September.

Code Club is a nationwide network of volunteers who run coding clubs for young people aged 9 - 13 years old. Younger members are also encouraged to come and have a go. We use Scratch, a drag and drop programming language developed specifically to introduce children to the basics of computer coding. Code Club provides step by step activity sheets for children to follow to create mini games and animations while learning the key concepts of programming at the same time. More information can be found at www.codeclub.org.uk.

Year 4 & 5 School swimming sessions

On Thursday 2nd November the whole of our key stage 2 pupils will be taking part in the annual cross country event at Caedmon College, therefore pupils in year 4 & 5 will miss their swim session. Please be advised all parents who have paid a contribution towards swimming costs any future coach trip costs will be taking into account for your child.
